

Cloud Security Summit Sydney 2024

Connect with over 150+ CISOs, Cloud Security specialists, and Infrastructure leaders in Sydney at the standout cloud security event of 2024.

Register now to join the wait list and receive the full program details when we launch.

Thursday 15th August 2024

9:00am - 3:00pm

Dockside, Sydney

As 2024 unfolds, the landscape of cloud security is rapidly evolving. The Sydney Cloud Security Summit in August is your gateway to understanding this dynamic world.

This significant event assembles industry stalwarts to dive into pressing cloud security topics, such as:

- **Hybrid and Multi-Cloud Security:** Ensuring seamless and secure integrations across various cloud platforms.
- **Zero Trust Architecture in the Cloud:** Building a resilient cloud defence that trusts no threat, regardless of origin.
- **Serverless Security:** Safeguarding infrastructures beyond traditional server setups.
- **Container and Orchestration Security:** Prioritising safety in our applications' core structures.
- **Using AI and ML for Cloud Security:** Leveraging intelligence to bolster cloud defence mechanisms.
- **Cloud Data Protection:** Upholding data integrity and privacy in cloud environments.

This cloud security event attracts over 100 prominent figures and offers profound insights and expansive networking opportunities. The discussions here will provide actionable knowledge, enabling you to shape and refine your cloud security strategies.

Discover, engage, and define cloud security at the Sydney Cloud Security Summit 2024. Enhance your expertise, foster valuable connections, and be part of the critical cloud security dialogue.

Eager to stay ahead in cloud security? Register now (</cloud-security-sydney-2024/register>)!

Speakers.

Our full event program will be announced early 2024!

Be sure to join the [wait list \(/cloud-security-sydney-2024/register\)](/cloud-security-sydney-2024/register) to be advised when the program launches.
